

PORT OF SAL REI - BOA VISTA ISLAND

Situated 450km off the coast of West Africa, between 14° 48' and 17°12' latitude North, and between 22°40' and 25°22' longitude West, Cape Verde is in the center of grand trade and navigation routes, in a privileged position for the establishment of a maritime point between the European, African, and American continents. We are prepared to offer alternatives to the main Atlantic maritime transshipment routes.

The Port of Sal-Rei is located on Boavista, Cape Verde's third largest island. The island has a strong potential for tourism making it necessary to construct larger and better port infrastructures to adequately respond to Boavista's development and the corresponding increase in traffic.

The port has the following technical aspects:
