

PORTO GRANDE- SÃO VICENTE ISLAND

Port Grande is located at the entrance of São Vicente Island, in a semicircular two-kilometer bay. It is naturally protected against strong maritime currents and its calm, transparent waters are between 11 and 30 meters deep. Due to its natural physical conditions, Port Grande offers excellent conditions for any kind of ship. Built in 1962, Porto Grande has the biggest and best port infrastructure in Cape Verde. Three F-shaped mooring wharfs are united by an access pier forming the port, with depths ranging between 3.5 and 12 meters. The port has the following technical characteristics:

QUAY Molhe	PIER Cais	LENGTH Comprimento(mts)	WIDTH Largura	DEPTH (mts) Profundidade
2	1	315.05	15.00	-11.50
2	2	315.05	15.00	-11.50
1	3	205.00	50.00	-11.50
1	4	217.00	50.00	-12.00
